MayPHIN, May 25, 1974.

To the Honorable Board of General Council:

GENTLEMEN—I have invited you to meet in special session to inform you that in your action in donating to the government of the United States the parcel of greated in front of Madison street, for the purpose of creeting thereon a customhouse, and no other, does not cover the intention of the treasury department. I am advised by our representative in congress, ton. Barbour Lewis, that it is the intention of the government to have in one building a customhouse, postoffice, court-rosms, and all other national offices; hence I request that you adopt an ordinance covering the intention of the government. Inasmuch as coopress will adjourn very soon, and our representative being hopeful of obtaining a very liberal appropriation, I trust the ordinance now presented to you will meet with your approval. You have, on behalf of the city, exhibited great generality in donating to the general government aparcel of land worth over three numbed and sixty-three thousand dollars, and no doubt the government will display equal therality in providing for the section of such public buildings as are needed in this, the second city in importance in the valley of the Mississippi. I also request your attention to a communication from the board of health. Riessed as we have been so far this year with good health, and the board being desirous of doing whatever is required to preserve it, hence I ask your careful consideration of the subject matter of this communication. Very respectfully.

Welsh, Helm and Pendergrant vs. man Hewett-The Case

A Henring Ordered on Monday Sext, Before Judge Halsey, of the Second Circuit Court,

Yesterday Captain Pat Walsh and Sergeant J. P. Heim, filed affidavits in the second circuit court that rule be made on S. B. Bobbins and Dr. William Hewitt, as respective chairmen of the board of aldermen and common council and members of the police board, and Captain G. K. Weatherford and Ser-geant R. F. Arratta, lately appointed on the force, to shaw cause why they shall not be attached and punished for conmon council was notified of the fact, and that the board of aldermen was tempt in refusing to obey the flat of the court, issued in the cases of certiorari A message was received from that body inviting the board to meet in joint session.

After giving a synopsis of the first part of the petitions, which have already been published in the APPEAL, the affinant arms gave their cause of complaint and ground for attachment. The affidavit was made before Justice Winters, and states the fact of their removal and alleges the election of Arraita and Weatherford to be illegal. The afflants obstoffice, etc., passed first reading, and and supercedas was issued and duly and final reading.

The amended to be megal. The analysis say that the process in the certiforarian and supercedas was issued and duly served on the mayor, John Loague, a member of the said Memphis board of police, who obeys the same and declined to proceed further; said Robbins and Hewitt and said Arratta and Weatherford were aware that the flat had been granted in said causes, and attempted to defeat and evade the same by causing Arratta and Weatherford to take the oath of office before a justice of the peace, and enter upon duty as captain and sergeant of police, without bond and without being inducted into office

as the law requires. Section thirty-three of the city-charter is in these words: "The general council shall have power to require bond and security, in such amounts as they may deem proper, from all persons holding office under the provisions of this charter of the city of Memphis, conditioned for the faithful discharge of their duties, and no person shall be qualified or enter upon the disshall be qualified or enter upon the dis-charge of the duties of his office until he

forney."
Said Arrata and said Weatherford are now continuing to act as sergeant and captain of police without being qualified and in express violation of the city and in express violation of the city charter and the supersedous granted in the said causes, which are pending in this court. This action is open defiance of the process of this court. The said process was duly served on John Loague, mayor, etc., Aratta and Weatherford, said Robbins and Hewitt, May 18th.

Burnett's Standard Flavoring Extracts. For flavoring soda syrups, ice creams, custards, etc. The superiority of these extracts consists of their perfect purity and great strength. There is no subject which should more engress attention than the purity of the preparations which are used in flavoring the various compounds prepared for the compounds prepared for the human stomach. These extracts are warranted perfectly free from the poisonous oils and acids which enter into the composition of many of the factitious fruit flavors now in the market. They are not only true to their names, but are prepared from fruits of the best quality, and so highly concentrated that a small quantity only need be used. They have stood the test of eighteen years' time and competition, and are pronouncest unrivaled by the most eminent connote-seurs in the United States. They are put up in five sizes—unpaneled norties, holding more than the paneted sizes ap-pearing much larger. They are the best and cheapest fruit extract the market

—We have before us a photograph of the Panois county, Mississippi, court-house, built by Mr. Cook, of this city. It is very handsome, and reflects credit on both architect and people. It is Italian in style, with mansard towers, the center one having a clock. The Panola Star, describing it, says: "It is the handsomest, the most substantial, and the best arranged courthouse in the State. The ground floor, which is for the several county officers, is divided ino seven offices, and each one is splendid-y arranged and handsomely finished. On the second floor are the courtroom, jury, and consultation rooms—six alto-gether. The courtroom is forty-three by fifty-three feet, and from floor to cellng twenty-eight feet, with a dome in he center seventy-five feet from the floor. This is indeed a magnificent room, and is very handsomely orna-mented, and we think a speaker can be heard with ease in it. All the rooms are heated by furnaces in the basement. We have seen them heated and tried during the week, and we believe they will do admirably. We believe that goed and faithful work has been done on every part of this building. The

walls are massive and substantial, the slate roofing appears to be good, and presents a very neat appearance—the plastering is firm and smooth, and looks like it will never break, and the painting and finishing are done in neat and workmanlike manner. We think Mr. Cook, the architect, and Mr. Johnson, the contractor, and his sub-contractors, all deserve credit for this beautiful de--The Grenada Sentinel of the twenty-third corrects what it deems an error of
